DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 21-23, 27, 28, 40, and 41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 21 and 34 contain the trademark/trade name Parsol 1789. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe a specific compound useful as a sun screening agent and, accordingly, the identification/description is indefinite.

Claims 27 and 28 are indefinite because they refer to a process for preparing the "composition" of claim 16; however, claim 16 is drafted as a compound claim. Similarly,

Art Unit: 1621

claims 40 and 41 are indefinite for referring to a process for preparing the "composition" of claim 31, but claim 31 is drafted as a compound claim.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: claims 16-20, 24-26, 29-33, and 35-39 are drawn to a compound neither disclosed nor suggest by the prior art of record, and to methods of using said compound(s).
